**Government Partnership for
Business Development**

An adhoc intergovernmental cooperative designed to improve the business climate in greater Chicagoland and Illinois by coordinating and packaging business incentives for companies just like yours. Contact any member agency for more information on improving your bottom line.

Could your business use up to \$10 million for land, building construction, facility renovation, or purchase of equipment at below market interest rates?

Could your business use a business loan at 2.5 % below market with a ratio as high as 95% of development costs and an opportunity for partial debt forgiveness?

Could your small business benefit from between \$5,000 and \$50,000 at reduced rates and without risk of pre-payment penalty even in today's tight credit market?

Could your bottom line benefit from industrial property tax rates reduced from 36% to 16% of assessed value for 10 or possibly 20 years?
